

Reasons why elf didn't move (because you forgot)

- Too much movement in your house
- It's too warm in your house (put him in fridge to restore his magic)
- He heard someone getting out of bed (stay in bed so he can move)
- He fell asleep waiting on you to fall asleep
- He saw/heard you misbehaving (made him sad, didn't want to report it to Santa, so he stayed here)
- I thought I heard snoring last night, he must have fallen asleep early
- The dog kept staying by him and wouldn't leave, so he couldn't move.
- He was sick last night (I heard him coughing, let's get him something for him/her)
- Someone touched Elf
- Elf was not allowed to leave your home (Santa Claus and Mrs. Claus are decorating for the elf party. They want it to be a surprise)
- Bad weather
